

# OfficialToken

**CRYPTO WITH PURPOSE**

# MISSION

We've been into crypto for almost a decade, and we've seen it become more and more grown up. Billions and billions of dollars flowing are through the crypto world every day

With the recent influx of traffic into small cap coins, a lot of scams have been pulled.

We got tired of getting scammed, that's why we started Official Token!

OfficialToken has a clear mission: To create a solid ecosystem with a goal of experiencing increased growth in both charitable donations as well as return on investment

We are accomplishing these goals through transparency, providing educational materials and Solid "Tokenomics" How solid? Well, just read on!

Lives would be changed with OfficialToken, not only our own lives as investors, but we will also change other people's lives through donations and our other charitable activities

You are invited to join our MOVEMENT in building a SAFER & STRONGER crypto-sphere while giving back to the less privileged!

# Giving Back

\$OFFICIAL is far from the usual micro-cap or. We are dedicated to building something that lasts.

We have a tremendous respect for people, organizations and institutions who dedicate themselves to helping others.

Different charities will be selected monthly via community votes and donations would be broadcast on live stream.

# Distribution of Tokens

## DISTRIBUTION

Token supply breakdown

- 10Q** Total supply
- 90%** Distributed
- 25%** Locked LP – Dec 2021

## TOKENOMICS

8% tax on each transactions (buy & sell)

- 3%** Auto LOCKED LP
- 3%** Auto burn
- 2%** Marketing & Charity budget

To maintain the long-term value of \$OFFICIAL token supply, there is a deflationary plan in place to take out tiny bits of the token supply, through buybacks and automatic transactional burn

# Marketing Plan

The marketing of \$OFFICIAL should be different too. We are strong believers of ‘The power of community and inclusivity’

The main focus is cause-based Marketing and PR exposure for OfficialToken

Every month a new charity or relief effort will be selected by our community of holders as well as the wider community

This strategy will allow us to respond and be very relevant to needs that may arise in the world

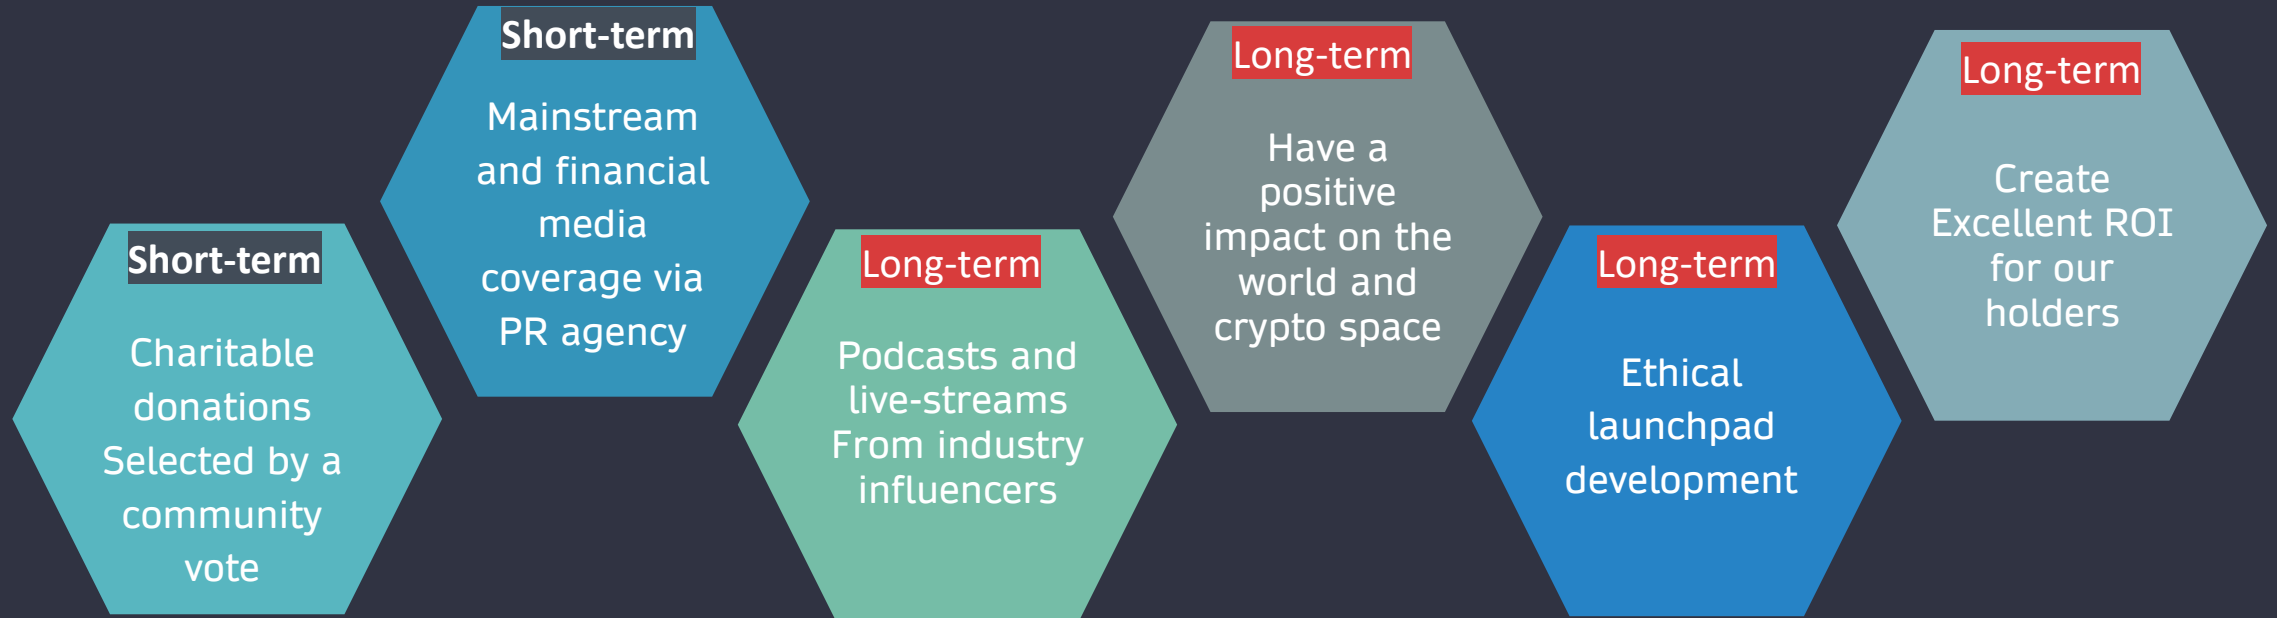

Next to that, we’ll create strong and exclusive partnerships with prominent members of the crypto community. This will include forging partnerships with other significant leaders in other fields of interest.

But of course, we’re aware that to make money, we need to spend money. That’s why we’ve also allocated a strong budget for paid marketing including:

- Influencer marketing
- Media attention via PR agency
- Podcasts
- Free educational materials

# Goals

This summarizes both our short-term and long-term goals for \$OFFICIAL token

Say Goodbye to Scams & Rugs
